IN THE CLAIMS

Please amend the claims as follows.

15. A pharmaceutical composition comprising a micro emulsion preconcentrate [having] yielding a droplet size in an emulsion of substantially less than 2000 A as measured by the light transmittance through a cell, and including a cyclosporin dissolved in an acetylated monoglyceride lipophilic solvent, and a surfactant.

18. The composition of claim [1 or] 15 wherein the surfactant is selected from the group of a polyoxyethylene glycolated natural[ ,] or hydrogenated vegetable oil, polyoxyl 40 hydrogenated castor oil, and a polyoxyethylene-sorbitan-fatty ester.

19. The composition of claim 1 [or 15 comprising] wherein said at least two surfactants further comprise two surfactants, one of which is a polyoxyethylene glycolated natural or hydrogenated vegetable oil and the second of which is a polyoxyethylene-sorbitan-fatty acid ester.

Please add the following claims.

22. The composition of claim 1 wherein said at least two surfactants are selected from the group of a polyoxyethylene glycolated natural or hydrogenated vegetable oil, polyoxyl 40 hydrogenated castor oil, and a polyoxyethylene-sorbitan-fatty ester.
